

Daily Briefing

Tuesday, August 11, 2026

Calendar

Google Calendar (dennismodrak@gmail.com). Outlook/M365 calendar was not connected for this run, so office events aren't reflected.

12:00 PM – 1:00 PM ET — Learning Lovable: Prompting for Better Outcomes

Virtual workshop on planning projects and writing better prompts with Lovable's AI. Join link is in the calendar event.

Newsletter Summaries

No unread emails from the four priority sources (Bradford Tax Institute, Checkpoint/Thomson Reuters, Accounting Today, CPA Trendlines) arrived in the last 24 hours. The most recent Checkpoint/Thomson Reuters newsletter ("Your August Update: Latest News & Releases from TR's Audit Workflow," Aug 10) had already been read before this run, so it's noted here for continuity but not re-summarized.

Other Important Emails

Hascall-Denke — CPA/3rd-party bank account viewer access (ongoing thread)

Chantel Smail has been setting up read-only bank viewer access (SouthState, Truist, Regions) for the firm. Latest reply (this morning) says she thinks it's fixed but is unsure about one account labeled "SS 5530." May need a quick reply to confirm which accounts you actually use.

Kathy Seiders (VITIL/AccountingDepartment) — 2025 Tax Recon Review

Asking when you and Jon Burger can discuss final adjustments to QuickBooks after the reconciliation — either a quick call between you two or she can schedule a conference call. Needs a scheduling reply.

Public Storage — Action needed: review your new agreement

Automated reminder that a Public Storage account/agreement setup is incomplete and needs review to finish.

Tasks

Todoist connector was not available for this run, so tasks could not be pulled directly.

A Todoist digest email received this morning (8:52 AM) flagged 8 overdue tasks for today, Aug 11. Check Todoist directly for the full list.
